

## About Us

We empower companies to take charge of their energy consumptions, showing them how to optimise and save energy. We also calculate automatically their carbon footprint

# Our services

Ultra accurate location-based services

Remote control - lock and anti-theft feature

Real time data and analysis of energy consumption and CO2 emissions

AI powered recommendations on energy profile and optimization of energy use

## Subscription

Starting from

**£35/month**

## Testimonial

"CarbonLnk's recommendations have heavily reduced our electricity usage, carbon footprint and utility bills and we can monitor everything in real time through a dashboard. First class service from the team a pleasure to work with"

**Andre, Property Guardians**
